Kindly complete your pre-test from your RPS Lab machine

https://app.mymapit.in/code4/tiny/Dm7Lz1

RPS Cloud Login you would have received via email, which looks like 23MAN3489_UXX

```
Password is Password@1
```

You may be prompted to change the password, you may change the password to rps@12345 as it would be
convenient to use a common password while troubleshooting during the training.

Login credentials for your RPS CentOS Lab machine

```
username - rps
password - rps@12345
```

Once you all complete the test, leave a confirmation message so that we can start the training.
